### ATTEMPT TO ASSASSINATE PRIEST.

An attempt to assassinate Rev. J. K. Fielding, pastor of Corpus Christi Roman Catholic Church of Chicago, was made yesterday afternoon. After twice shooting at the priest in the hallway of the Sunday school, the assassin, knocking down several children that stood in his way, ran into the street and escaped. The priest was not hurt.

The culprit first attracted attention by loitering about the church and writing on a sheet of paper which he held against the building.

Made curious by the man's peculiar actions, Father Fielding asked him, "What are you doing here?"

"I'm praying," replied the stranger.

As the priest turned his back, the stranger drew a revolver and pressed it against the head of his intended victim. Father Fielding immediately knocked the weapon away, just in time to escape a bullet which grazed his head and clipped a lock of hair from his temple. The priest then knocked the culprit down.

Hurriedly scrambling to his feet, the man continued down the hallway, pushing and trampling over many children. At the bottom of the stairs he turned and fired another ineffectual shot at the priest, and then, still brandishing the revolver, ran down the street.

Children and citizens, accompanied by Father Fielding, pursued the man, but he escaped.

Do not let anyone tell you that something else is just as good as DeWitt's Kidney and Bladder Pills because there isn't anything just as good. Sold by W. F. Croighton & Co.

**FR. MARSTELLER ARRESTED.**

Dr. E. H. Marsteller, of Baltimore, and a surgeon in the navy, was arrested at Manassas Friday upon a warrant sworn out by J. B. Rhinehart, a railroad contractor, of Washington, charging him with having threatened Mrs. Rhinehart's life in Gainesville district, in Prince William county, the evening previous.

The accused was brought before Justice Hutchison, who decided that the offense was committed beyond his jurisdiction and referred the case back to Magistrate Horton, of Gainesville district who issued the warrant. The affair grew out of a meeting, in the public highway, of Dr. Marsteller, who was on horseback, and Mr. Rhinehart and his wife in their automobile. Dr. Marsteller's horse took fright at the automobile and it is alleged he used abusive language to Mr. Rhinehart and drawing a revolver, threatened to shoot him.

DeWitt's Little Early Risers, the famous little liver pills. Sold by W. F. Croighton & Co.

### ERA OF CHURCH BUILDING.

An era of extensive church building in St. Louis culminated yesterday in the laying of the cornerstone of the new Roman Catholic Cathedral, which when completed will cost over \$2,000,000, and in the dedication of the Second Baptist Church at Kings Highway and McPherson avenue, which has just been completed at a cost of \$250,000.

The cathedral ceremonies brought to the city an assemblage of church dignitaries from many parts of the nation, and were witnessed by an immense concourse of people.

Seven archbishops, 13 bishops and 500 clergymen, schoolmasters and seminarists took part in the cornerstone ceremonies and viewed the parade from a stand on the cathedral site. It took the 10,000 marchers three hours to file past the reviewing stand.

The parade was not more than half over when Archbishop Diomedo Falconio, papal delegate to the United States, began the ceremony of laying the corner stone.

When the last marchers had passed the crowd surged around a temporary platform, from which, as darkness came on, Archbishop Glennon, of St. Louis, read a message of congratulation from President Roosevelt and delivered a discourse. A massive electrically illuminated cross, high on a scaffold, threw its light over the thousands of listeners.

### SOURCES OF TYPHOID.

The reports of Surgeon Gen. Wyman and Health Officer Woodward of the investigation jointly conducted by the District of Columbia physicians and officers of the public health and marine hospital service into the epidemic in Georgetown, disclose one of the most remarkable discoveries in medical history in connection with the source and spread of typhoid fever. The investigation established the fact that a woman milked, at a neighboring dairy, who had had typhoid fever eight or ten years ago, still throws off in her d uct a virile typhoid fever bacilli and was the responsible agent in spreading the disease.

With one exception this is the first considerable outbreak of typhoid fever in the United States, traced through milk, to such a carrier. A peculiar feature in connection with the case is that the examination developed large numbers of typhoid bacilli in the d ucts of the woman, although she apparently was enjoying good health. Surgeon Gen. Wyman says an important source of the disease has been developed.
